

Report of Doctoral Dissertation Prospectus

The student must successfully complete the doctoral comprehensive examinations and the results must be on file with the Graduate College before the submission of the dissertation proposal/prospectus results. The student will be advanced to candidacy after successful completion of the dissertation proposal/prospectus.

Please see the Ph.D. handbook for a full description of the policies and procedures for the prospectus:
<https://scai.engineering.asu.edu/handbooks/>.

All results, including failure of the dissertation prospectus, will be reported. Failure in the dissertation prospectus is considered final unless the head of the academic unit recommends, and the Dean of the Graduate College approves, a second proposal defense. If approved, the student must submit the new prospectus by the end of six months.
